

⑧ Connecting People through food: A Food Treasure Hunt at the old Kominka-style house "Hisom" with modern comfort and luxury.

Oda City/Shimane/Japan

Tour overview:

This is a food treasure hunt tour where the guests can connect with farmers, fishermen and other producers through food ingredients in the seaside of Yunotsu Town, mainly in the Hiso area. You can freely prepare and eat the food you get in the beautiful kitchen. After making a reservation, you can choose the food course you want in advance, and upon arrival, you can visit the local producers together or have them deliver the ingredients to you. You can also choose to have a style dinner prepared on the spot using local ingredients by an on-site chef. It's a great way to spend a special and relaxing time at a nice inn. I hope you enjoy your stay.
